

Letter from Santa Claus

North Pole 2025

Dear Elena,

You're now six years old, living in the beautiful city of Paris, France. I've heard about your love for playing tennis, and I'm so proud of you for helping at home. It's not always easy, but you're doing a great job!

I know you've been dreaming of a Lego set. The elves and I have been working hard to make sure every child's wish comes true. I can't promise anything, but remember, the magic of Christmas is full of surprises!

Continue being the wonderful, helpful girl you are, Elena. I hope you have a magical Christmas filled with joy, laughter, and maybe even a game of tennis. Remember, the best gifts are not always the ones you can hold in your hands, but the ones you hold in your heart.

Merry Christmas, Elena!

Santa Claus
