

Letter from Santa Claus

North Pole 2025

Dear Keith,

You're nine years old now, a big boy in Athens, Greece, and I've heard wonderful things about you! I've seen how you love playing tennis, swinging your racket with such joy and determination. It's a beautiful sight!

I've also noticed your kindness and how you share and collaborate with others. This is a gift more precious than any toy, and it makes me very proud. Remember, the best players are those who know how to be part of a team.

Now, about your Christmas wish for a Lego set, I think someone who builds friendships as well as you do will surely enjoy building with Legos. Keep an eye on your stocking!

Merry Christmas, Keith! Keep spreading your joy and kindness.

*With love,
Santa Claus*
