

Letter from Santa Claus

North Pole 2025

Dear Bill,

You're ten years old now, a big boy, living in the beautiful city of Paris, France. I've heard about your love for riding your BMX bike, and I must say, it's a wonderful way to explore your city!

I've also noticed how much you help at home. It's a great achievement, Bill, and it makes me very proud. Remember, every good action brings joy to the world, just like each snowflake makes the winter landscape more beautiful.

Now, about your Christmas wish for a Lego set. Well, let's just say, my elves have been very busy in the workshop. Keep being good, and you might find a surprise under the tree!

Merry Christmas, Bill! Keep spreading the joy with your kindness and your BMX tricks.

Santa Claus
