

Letter from Santa Claus

North Pole 2025

Dear Mary,

You're seven years old now, a magical age, and living in the beautiful city of Paris, France. I've heard all about your love for playing tennis, and how you've been helping at home. Such good behavior is truly commendable!

I know you've been expecting a Lego set this Christmas. I must say, it's a wonderful choice. Building with Lego can spark creativity and it's a lot of fun too. I'll make sure to find a special set for you.

Remember, Mary, the magic of Christmas is not only in the gifts we receive but also in the love we share. Keep playing tennis, helping at home, and spreading joy. Merry Christmas!

*With love,
Santa Claus*
