

Letter from Santa Claus

North Pole 2025

Dear Bill,

You're six years old now, living in the beautiful city of Athens, Greece. I've heard about your love for riding your BMX bike and how it fills your heart with joy. It's wonderful to see such passion in a young boy like you.

I've also noticed how helpful you've been at home. Your kindness and willingness to lend a hand are truly admirable. These are the qualities that make the Christmas spirit shine brighter, and I'm proud of you.

I know you're eagerly waiting for a Lego set. Remember, the magic of Christmas is not just about receiving gifts but also about the love and kindness we share. Keep up the good work, Bill. You're on the nice list!

Merry Christmas,

Santa Claus
