

Letter from Santa Claus

North Pole 2025

Dear Helen,

I hope this letter finds you well in the beautiful city of Paris. I've been watching over you from the North Pole and I'm so proud of you. You're five years old now, growing up so quickly!

I've heard that you enjoy swimming in the pool. That's wonderful! Swimming is not only enjoyable but also a fantastic way to stay healthy. And guess what? Even my reindeer love to frolic in the snow. I also know that you've been hoping for a new red bicycle from me. I've made a note of that.

You've been such a good girl this year, Helen. You've demonstrated kindness and compassion to your friends, and that's the true spirit of Christmas. Continue to spread love and joy around you.

Merry Christmas,

Santa Claus
